

## **SAW Components**

### **SAW filter**

WiMAX

<b>Series/type:</b>	<b>B4070</b>
<b>Ordering code:</b>	<b>B39811B4070U410</b>
<b>Date:</b>	<b>February 07, 2006</b>
<b>Version:</b>	<b>2.1</b>

SAW Components

B4070

SAW filter

810.00 MHz

Data Sheet

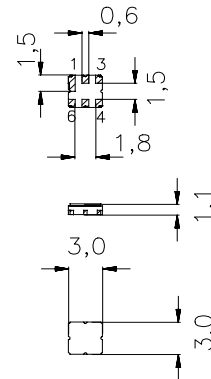

### Application

- Low-loss IF filter for WiMAX systems
- Low amplitude ripple
- No matching required for operation at 50 Ω
- Usable passband 10 MHz

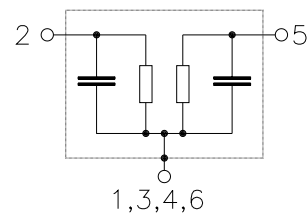

### Features

- Package size 3.0 x 3.0 x 1.1 mm<sup>3</sup>
- Package code DCC6C
- RoHS compliant
- Approx. weight 0.037 g
- Package for **Surface Mount Technology (SMT)**
- Ni, gold-plated terminals
- **Electrostatic Sensitive Device (ESD)**

### Pin configuration

- 2 Input, unbalanced
- 5 Output, unbalanced
- 1,3,4,6 To be grounded

SAW Components

B4070

SAW filter

810.00 MHz

Data Sheet

**Characteristics**

Operating temperature range:  $T = -40$  to  $+85$  °C  
 Terminating source impedance:  $Z_S = 50$  Ω  
 Terminating load impedance:  $Z_L = 50$  Ω

		min.	typ. @ 25°C	max.	
<b>Center frequency</b>	$f_C$	—	810.0	—	MHz
<b>Maximum insertion attenuation</b>	$\alpha_{max}$				
805.0 ... 815.0 MHz		—	2.5	3.0 <sup>1)</sup>	dB
<b>Amplitude ripple (p-p)</b>	$\Delta\alpha$				
805.0 ... 815.0 MHz		—	0.5	1.0	dB
<b>Group Delay ripple (p-p)</b>	$\Delta\tau$				
805.0 ... 815.0 MHz		—	40	100	ns
<b>Input return loss</b>					
805.0 ... 815.0 MHz		10.0	12.0	—	dB
<b>Output return loss</b>					
805.0 ... 815.0 MHz		10.0	13.0	—	dB
<b>Attenuation</b>	$\alpha$				
500.0 ... 780.0 MHz		25	35	—	dB
860.0 MHz		50	55	—	dB
1500.0 ... 2500.0 MHz		20	27	—	dB
<b>Temperature coefficient of frequency</b>	$TC_f$	—	-36	—	ppm/K

1) 2.7 dB max. at 25°C.

B4070

SAW filter

810.00 MHz

Data Sheet

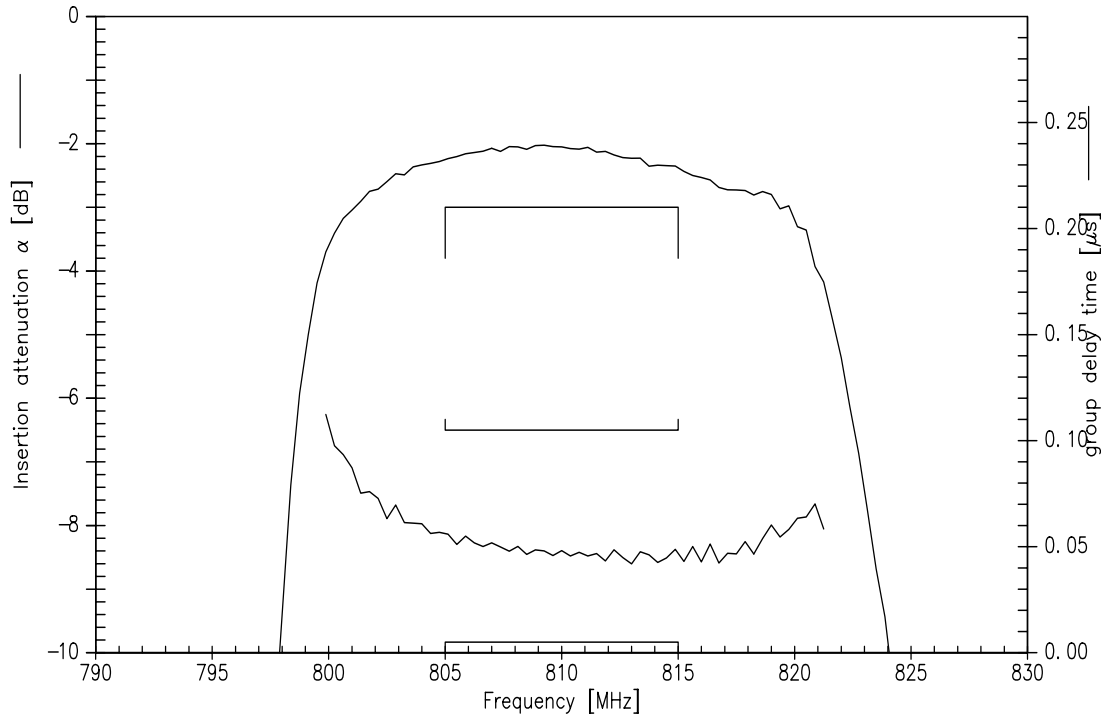

### Maximum ratings

Operable temperature range	T	-40/+85	°C	
Storage temperature range	T <sub>stg</sub>	-40/+85	°C	
DC voltage	V <sub>DC</sub>	3	V	
ESD voltage	V <sub>ESD</sub>	100 <sup>1)</sup>	V	machine model, 10 pulses
Input Power at 805.0...815.0MHz	P <sub>IN</sub>	5	dBm	continuous wave

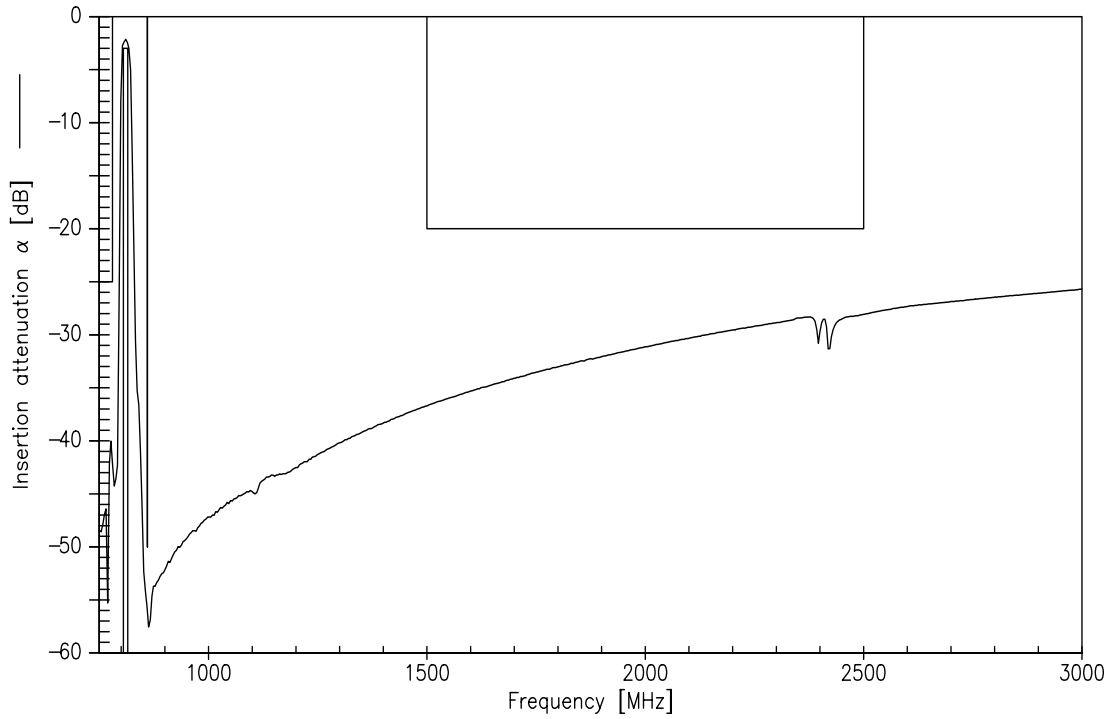

<sup>1)</sup> acc. to JEDEC22-A115A (machine model), 10 negative & 10 positive pulses.

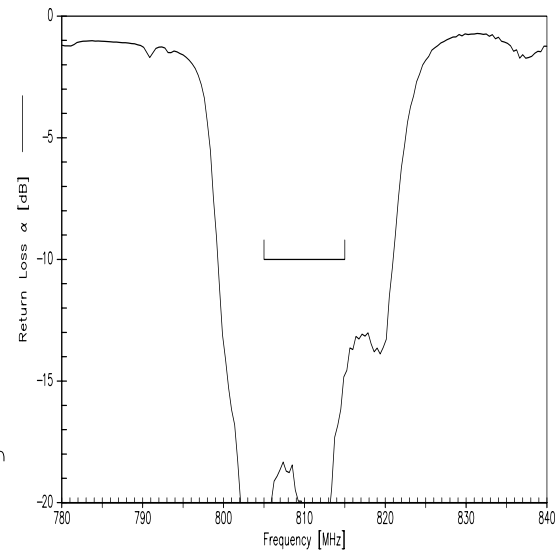

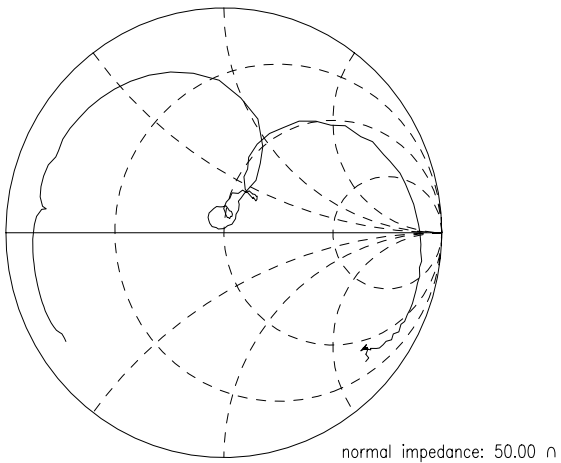

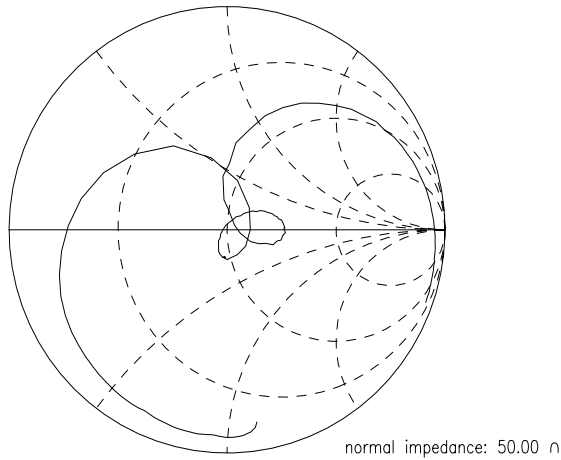

Transfer function

Transfer function (wideband)

**SAW Components** **B4070**

**SAW filter** **810.00 MHz**

For questions on technology, prices and delivery please contact the Sales Offices of EPCOS AG or the international Representatives.

Due to technical requirements components may contain dangerous substances. For information on the type in question please also contact one of our Sales Offices.

Please read *cautions and warnings and important notes* at the end of this document.

## Important notes

The following applies to all products named in this publication:

1. Some parts of this publication contain **statements about the suitability of our products for certain areas of application**. These statements are based on our knowledge of typical requirements that are often placed on our products in the areas of application concerned. We nevertheless expressly point out **that such statements cannot be regarded as binding statements about the suitability of our products for a particular customer application**. As a rule, EPCOS is either unfamiliar with individual customer applications or less familiar with them than the customers themselves. For these reasons, it is always ultimately incumbent on the customer to check and decide whether an EPCOS product with the properties described in the product specification is suitable for use in a particular customer application.
2. We also point out that **in individual cases, a malfunction of passive electronic components or failure before the end of their usual service life cannot be completely ruled out in the current state of the art, even if they are operated as specified**. In customer applications requiring a very high level of operational safety and especially in customer applications in which the malfunction or failure of a passive electronic component could endanger human life or health (e.g. in accident prevention or life-saving systems), it must therefore be ensured by means of suitable design of the customer application or other action taken by the customer (e.g. installation of protective circuitry or redundancy) that no injury or damage is sustained by third parties in the event of malfunction or failure of a passive electronic component.
3. The warnings, cautions and product-specific notes must be observed.
4. In order to satisfy certain technical requirements, **some of the products described in this publication may contain substances subject to restrictions in certain jurisdictions (e.g. because they are classed as "hazardous")**. Useful information on this will be found in our Material Data Sheets on the Internet ([www.epcos.com/material](http://www.epcos.com/material)). Should you have any more detailed questions, please contact our sales offices.
5. We constantly strive to improve our products. Consequently, **the products described in this publication may change from time to time**. The same is true of the corresponding product specifications. Please check therefore to what extent product descriptions and specifications contained in this publication are still applicable before or when you place an order. We also **reserve the right to discontinue production and delivery of products**. Consequently, we cannot guarantee that all products named in this publication will always be available.
6. Unless otherwise agreed in individual contracts, **all orders are subject to the current version of the "General Terms of Delivery for Products and Services in the Electrical Industry" published by the German Electrical and Electronics Industry Association (ZVEI)**.
7. The trade names EPCOS, CeraDiode, CSSP, PhaseCap, PhaseMod, SIFI, SIKOREL, Silver-Cap, SIMID, SIOV, SIP5D, SIP5K, TOPcap, UltraCap, WindCap are **trademarks registered or pending** in Europe and in other countries. Further information will be found on the Internet at [www.epcos.com/trademarks](http://www.epcos.com/trademarks).
