

Premium CERTI-CRIMP II Hand Tools

Fast Facts

- Designed to exacting specifications
- Ratchet control provides complete crimping cycle
- For most military, UL and CSA applications
- Manufactured using the highest quality materials
- Requires minimum skill
- Repairable
- Calibrated; recalibration recommended every 6 months or 5,000 cycles
- Many SAHT and DAHT crimping heads, and many die sets, can be adapted for use with the 626 Pneumatic Tool System (*Request Catalog 124208*)
- Produced under a Quality management System certified to ISO 9001. (*A copy of the certificate is available upon request.*)

CERTI-CRIMP Hand Tools are top-of-the-line, premium, hand-operated tools for crimping a broad array of terminals, contacts and special wiring devices available from TE Connectivity. They are designed to exacting specifications to produce consistent, high-quality terminations. A potential service life of over 50,000 cycles is possible, depending on operator care.

There are currently seven basic styles of CERTI-CRIMP Hand Tools. The choice depends on the product being applied and/or your preferred method of application. For example, open barrel contacts typically require straight-action die movement to minimize possible rotation during crimping. Or, if your application requires crimping different sizes of terminals, you may prefer using a single tool with a combination of crimping nests, rather than two or three separate tools.

Other options include insulation crimp adjustment for different insulation thicknesses, a locator for properly positioning and supporting the terminal or contact in the tool, a wire stop, and color coding and/or wire size information on the head of the tool or on the handles.

All CERTI-CRIMP Hand Tools feature the reliable ratchet control. The ratchet will not release until the handles are fully closed and the dies bottomed. This helps eliminate partial crimps.

CERTI-CRIMP Hand Tools are well suited for low production runs, prototype work, and repairs—almost any application requiring consistent, highly-reliable terminations. CERTI-CRIMP Hand Tools are designed to meet all feature requirements listed on applicable TE Application Specifications. (Check appropriate product catalogs for qualification to military specifications, UL recognition and CSA certification.)

or e-mail toolsales@te.com.

CERTI-CRIMP Tooling Options

Double Action Hand Tool (DAHT)

- Dies travel in arc-like path
- Locator on tools for FASTON, MATE-N-LOK, PIDG and PLASTI-GRIP
- Insulation adjustment on tools for FASTON, MATE-N-LOK, PIDG and PLASTI-GRIP terminals
- Approx. weight 1.2 lb [0.54 kg]

T-HEAD Hand Tool

- Dies close in a straight line
- Locator
- Quick take-up on handle for holding terminal or splice in place
- Adjust insulation crimp with a 4-position screw
- Color coded
- Approx. weight 1.3 lb [0.59 kg]

TETRA-CRIMP Hand Tool Part No. 59824-1

- Dies travel in arc-like path
- Multiple color-coded crimping cavities
- Terminal locator and wire stop
- Ratchet control release
- Approx. weight 1.4 lb [0.64 kg]

Heavy Head Hand Tool (HHHT)

- Designed to terminate most large coaxial cable and heavy-gage wire
- Dies close in a straight line
- Locator and wire stop when applicable
- Insulation adjustment on tools for AMPLI-BOND, PIDG and PLASTI-GRIP
- Approx. weight 2.1 lb [0.95 kg]

Platform Die Hand Tool Part No. 58078-3

- Same frame configuration as TETRA-CRIMP Hand Tool
- Dies are interchangeable
- Adjustable terminal locator
- Approx. weight 1.4 lb [0.64 kg]

"C" Head Straight Action Hand Tool Part No. 69710-1

- Dies close in a straight line
- Dies are interchangeable
- Locators and other applicable features included with dies
- Approx. weight 1.9 lb [0.86 kg]

Straight Action Hand Tool (SAHT)

- Dies close in a straight line
- Contact locator and support
- Wire stop
- Insulation crimp adjustment (4 positions)
- Ejects crimped contact
- Approx. weight 1.3 lb [0.59 kg]

Need More Information?

For information about tooling, call 1-800-522-6752 or e-mail toolsales@te.com.

Fast Facts

- Highly visible, easier to load terminals
- “New” spring loaded retention feature
- Configured for CERTI-CRIMP II Heads
- Available with short and long handle tools
- Accurately locates the terminal for a more consistent crimp termination

New Flip Locator for Premium CERTI-CRIMP II Hand Tools

TE Connectivity introduces a Flip Locator Hand Tool feature designed to provide the ultimate in terminal placement accuracy, increased efficiency and ease of use.

Function

The new wire size trends have translated into new operator, tooling, and application challenges. Small terminal handling is a particular challenge as terminals continue to miniaturize. In fact, TE Connectivity is working on a terminal that has a crimp width of only 0.015” (0.38 mm). This creates an enormous problem handling the terminal and locating it properly into a hand tool’s die set.

To help with the problem, TE is releasing its new “flip locator” on selected Premium CERTI-CRIMP II straight action hand tools. This TE flip locator system allows the operator to “flip” the locator approx 150 degrees, which provides exact placement of small terminals. After loading, the locator is “flipped” back into position and the terminal is properly located automatically. Now, with the terminal held in place, the operator can concentrate on proper wire placement and complete the termination process.

Another Hand Tool Advantage from TE Connectivity.

Step-by-Step

Need More Information?

For information about tooling, call 1-800-522-6752 or e-mail toolsales@te.com.

LightKnack for CERTI-CRIMP II Hand Tools

- Featured on All CERTI-CRIMP II Tools
- Illuminates the Crimp Area
- Eases the termination process
- Magnetic for a secure placement while maintaining flexibility
- Applicable for any Metallic Tool Surface
- Available separately in packs of 3

Insertion/Extraction Tools

*For Universal Handle (with adjustable strap) with short tip holder (1.87 [47.5]), specify "-1" suffix; with long tip holder (5.87 [149]), specify "-2" suffix.

Requires Installation Tip:

Part Number 465468-1

(≤ .185 [4.7] insul. dia. and/or crimp width) or

Part No. 465488-1 (> .185 [4.7] insul. dia. and/or crimp width).

Universal Handle
Part No. 465629-□*

Insertion/Extraction Tool
Part No. 91285-1

Extraction Tool
Part No. 305183

Extraction Tool
Part No. 318851-1

Extraction Tool
Part No. 455822-2

Extraction Tool
Part No. 465644-1

Extraction/Lance Reset Tool
Part No. 843996-3
